

sky-tile®

the decorated suspended ceiling

The Sky-Tile decorated suspended ceiling is the one and only original one

It is our line of decorated suspended ceilings with certified inks on certified rock wool panels produced by Saint-Gobain:

Our decorative technology is protected by a national patent
Patent no. 102023000014166 – filed with the UIBM on 06/07/2023
and is awaiting international extension to ensure protection in foreign markets

The Sky-Tile graphics are registered with the
Ministry of Enterprises and Made in Italy

- **Format:** 60 × 60 cm
- **Thickness:** 1.2 cm
- **Weight:** 440 g
- **Material:** High-density rock wool
- **CE marking:** DoP No. CX001 - CX002 - CX003
- **Fire resistance:** REI 120 – installation must comply with the specifications stated in the certificate
- **Humidity resistance:** 100%

Sky-Tile decorated suspended ceilings in the architectural field can add value to the projects you create for your clients, in full compliance with the most stringent European fire safety regulations.

Sky-Tile decorated rock fiber panels are made with high-quality materials produced by Saint-Gobain and then decorated using the most advanced technologies, ensuring not only high technical performance but also an extraordinary visual result and long-lasting durability.

Sky-Tile offers an important customization service, allowing professionals such as architects and interior designers to reproduce material and decorative elements from the walls to create continuity on the ceiling.

Their versatility makes them suitable for use in various settings such as offices, shops, pharmacies, bars, hotels, restaurants, banks, supermarkets, and even residential environments.

To meet the needs of architects and interior designers, the surface of Sky-Tile decorated panels features a matte, anti-reflective finish that does not alter the colors regardless of the viewing angle, highlighting the texture of the material and making them appear realistic even to the most discerning eyes.

Retro Module 21

CO-139

A unique composition made up of 21 modular Vintage-style graphics, each different from the others.

It allows for endless installation layouts, entrusted to the creativity of the client, who can freely combine the geometric designs according to personal taste by rotating and mixing them as desired.

Below is the modular layout designed by our interior designers.

Our design office likes to take risks, and we enjoy challenges.

It is not easy to believe in this proposal, and it is not easy to give up the white ceiling.

Sky-Tile breaks conventions, but above all it appeals to those who enjoy changing the “outfit” of their spaces from time to time, throwing their hat into the air like a magician and transforming their environments. The modular suspended ceiling panels can be replaced quickly and are extremely lightweight; no specialized technician is required—you can do it yourself easily with just a ladder.

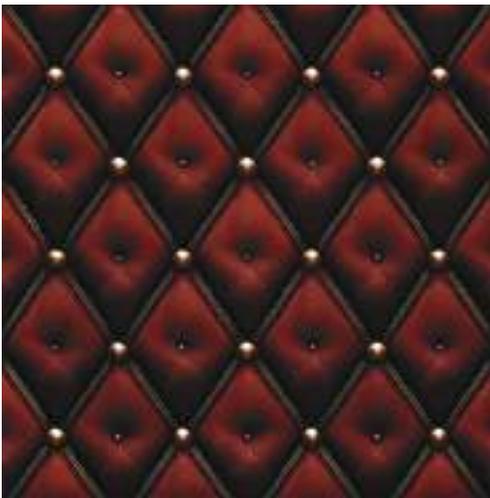

This unique special composition is made up of 10 modular graphics, each different from the others.

It allows for endless installation layouts, entrusted to the creativity of the client, who can freely combine the geometric designs according to personal taste.

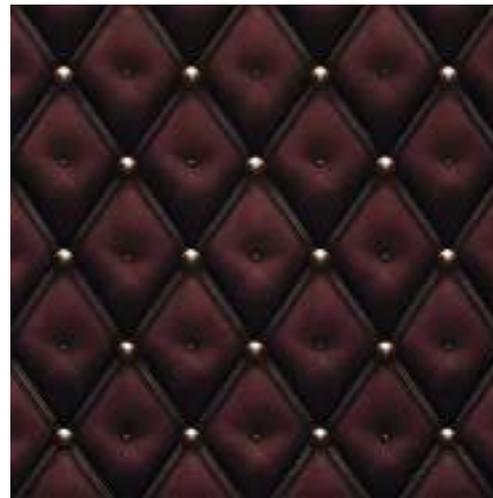

Leather

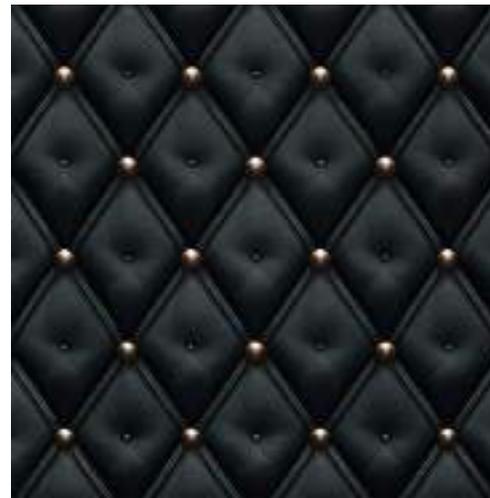

With Sky-Tile leather effect, you can add a touch of elegance and personality to any environment. Our rock wool panels faithfully reproduce the texture and feel of leather, creating a warm and welcoming atmosphere. Perfect for enhancing offices, production areas, retail spaces, or your home, these suspended ceilings allow you to set your space apart and make it truly unique.

Alfa Monster

CO-170

A2

Welcome to the wonderful world of our children's panels!

We are pleased to present our fantastic collection of 36 panels in the 60×60 format, featuring the letters of the alphabet from A to Z and the numbers from 0 to 9. Each panel is accompanied by a friendly monster that supports and represents the letter or number.

Our panel line has been specifically designed to decorate modular suspended ceilings and to bring a cheerful atmosphere to kindergarten classrooms, nurseries, children's recreation rooms in pediatric hospitals, and many other environments.

We strongly believe that learning should be a fun and engaging experience for children, and this is exactly why we created these panels.

Educational

Educational

We are pleased to present our fantastic collection of 60 panels in the 60×60 format, featuring animals from all around the world. Each panel showcases a different animal, such as lions, elephants, giraffes, monkeys, and many more.

Our vibrant and colorful designs capture children's attention and encourage them to explore the animal world. With our animal panels, children can learn while having fun and develop a love and curiosity for nature.

We are happy to offer a stimulating and creative learning option that will enrich children's educational environments.

Colorful

This Sky-Tile section is dedicated to those who love solid, intense, and true color, available in all its shades.

It allows you to transform any space into a special environment with our colored suspended ceiling panels.

They are made of 100% recyclable rock wool and are available in a wide range of Pantone® colors to meet any requirement. Our panels are the ideal solution for creating a unique and personalized atmosphere.

Whether it is an office, a production area, a retail space, a home, or a school, these colored suspended ceilings can add a touch of personality and design to any environment.

Transform office spaces, production areas, retail stores, or homes with Sky-Tile Customizable panels.

If you have a logo or a graphic you would like to see printed on your modular ceiling, this service is designed to meet your needs.

You can create a unique and original environment that enhances a standard modular suspended ceiling.

Send us your preferred graphics to make every space truly special.

Custom Project

The Sky in a Room

Look up and be amazed!

AI

Everything has a beginning and an end, but the graphic project we present here represents infinity to us. The infinity of the sky reproduced on the ceiling of your room.

It does not matter whether the room is large or small: our designers will resize an extraordinary graphic depicting the blue sky and clouds to perfectly fit the space.

Each decorated panel will be numbered and will be part of a giant puzzle that, once completed, will allow you to have the sky in a room.

We will provide you with an installation layout that corresponds to the suspended ceiling grid plan, allowing you to install the panels with ease.

Custom Project

Sky-Tile offers you maximum creative freedom to create eye-catching graphics and installation layouts tailored to your needs.

The design of custom suspended ceilings can transform your space, giving it a touch of elegance and originality. Our design service is intended for those who want a unique solution for their environment, one that fully reflects their style.
